Projects

DecoJam!

Apr 2018 to Current

Ruby on Rails

A platform for artists to collaborate on pieces through random daily challenges. This process is meant to improve an artists skill-set through constant repetition via daily art challenges.

Rubypedia

Sep 2017 to Oct 2017

Ruby on Rails

A subscription based Wikipedia-esque application meant as an open content online encyclopedia created through the collaborative effort of a community of users

Mark it Off

Nov 2017 to Dec 2017

Ruby on Rails

Mark it Off is a platform to organize your to-do lists by forcing you to complete each task within seven days of creation.

Steam RPG Bot

Oct 2017 to Current

Node.js

A Steam Ai for moderating community group chat rooms that allows for more than just moderation, such as an MMO Text adventure experience.

Text-to-Speech-to-Text With Python

Feb 2018 to Current

Python

An occasionally maintained side project that includes many different folders containing speech-recognition, text-to-speech, and speech-to-text packages.
